I don't buy your explanations
Your short sighted expectations
Stop complaining, I don't care

(I told you the way it had to be)
I will fuck with you
If you try to fuck with me
(So don't try it)

Look at this face, i'm the one you love
The white light of truth from heaven above
An angel of shit, fucker

It's no road to ruin
Not a final solution
Just the grand execution
Of our Joyfull Reunion

You squeezed the world in the palm of your hand
But when it lay in pieces
Did you give a damn?
(Why should you?)

Don't play dumb and don't ask why
With a blink of my eye you are cut and dried
And hung up "bye, bye"

It was here, where did it go
I don't know, I don't know
Anything any more

In this ball of confusion
Through these painfull convolutions
There's no clear-cut solution
Just a Joyful Reunion

What are you trying to escape
Your name calls me
Your mirror is my gate
(smash, through the looking glass, fucker)

I am your hated enemy

The friend that makes you start again
Just when you thought it was finally the end

Hit me hard, tear me apart
To rise again is my special art
You can't kill me

With all the things that cut me down
Shake, brake, mutilate "grind me into the
ground
I'll grow up again with first rain, just the same

We will raze the institutions
Make all new resolutions
Rebuild constitution
For that Joyful Reunion
