From deep and dark and dirty  
Come creeping, crawling, squirming menace, threat  
To frighten the world socialistic coelomate  
Segmentated separatist they're tunnelling holes in our  
home.

Look here come the wormies  
Look here come the wormies  
Look here come the wormies  
They're going to take us all take us away

Sitting in your duplex home talking on the telephone  
Hungry wormies are very near  
Anarchaic annelid oligochaeta  
Revolt overthrow and be overthrown

chorus

Now we've settled down again  
But the time is coming when wormies will be taking us  
away
