Can you picture me standing there?
I see it can you picture me way up there?
I see it now my whole life
I see it now my whole damn life
Teresa, what would you die for? What would you die
for?
What would you die for, teresa? What would you die
for?

Teresa, give me that knife give me
That knife teresa, give me that knife give me that knife
teresa
Can you picture me there?
There I m almost there
I'm almost there I m almost there
Teresa, what would you die for? What would you die
for?
What would you die for, teresa? What would you die
for?
Teresa, give me that knife teresa, give me that knife
teresa,
Give me that knife teresa, give me that knife teresa
