The air gets thinner by the minute and I can't breathe
any longer

This has lasted long enough
Let me be the blood in your heart
I will be at your side
Let me be your saviour
Let me kill the faults in your life

I'll be your saviour now

It makes us what we are
Another face in the crowd for some
A saviour to others who have nothing left
It makes us what we are

A saviour to some

I live my life like it's the last chance
Let's hope one day we'll all see what we're worth
It's more than the flesh we are on our bones
It goes deeper than the blood in our hearts

I'll be your saviour
Let me be at your side
I'll be there for you

Now meet your saviour
I'll be right next to you
I'll be there for you

Let me be there at your side
I'll be there for you
I'll be your saviour

Let me be at your side
Let me be the blood in your heart
I will be at your side
