To all my friends
The night is young
The music's loud
They playing our song
Nowhere else that I belong
Than here with you...
Than here with you

Oh oh oh oh oh oh

Ain't felt this good since I remember
This night got started when
You entered
I hope we can get a little closer
Maybe even get to know your name
I wanna hear the music so loud
Get some drinks inside me
Right now

So baby let it go
You had me at hello
Let's raise our glass and toast
DJ play that once more

To all my friends
The night is young
The music's loud
They playing our song
Nowhere else that I belong
Than here with you...
Than here with you

Oh oh oh oh oh oh

Gonna see the sun
Before we know it
If you got some money
Time to blow it
Girl, way you got me feeling
So sick
Dancing the night
Away with you, with you, with you yeah

Nobody here is sober
Last call don't mean it's over yeah

So baby let it go
You had me at hello
Let's raise our glass and toast

To all my friends
The night is young
The music's loud
They playing our song
Nowhere else that I belong
Than here with you...
(Than here with you)
Than here with you

Oh oh oh oh oh oh

Than here with you
Than here with you
Oh oh oh oh oh oh

I wanna hear the music so loud yeah
(I wanna hear the music so loud, yeah)

To all my friends
The night is young
The music's loud
They playing our song
Nowhere else that I belong
Than here with you...
(Than here with you)
Than here with you

Oh oh oh oh oh oh
Than here with you

Oh oh oh oh oh oh
Than here with you

Oh oh oh oh oh oh
Than here with you

Oh oh oh oh oh oh
