It is getting really windy
It is also getting cold

The night have lost it's sunrise
So it starting to be really nice

Now its time to read my old book
The book about my life

I am really feeling grateful
I believe my journey is so bright

Goodnight dear my friend
Goodnight to the world
Let wind sway you in your sleep

Come on,
Star lights in your dreams
Peaceful in your heart
Slowly gonna go to sleep

Goodnight all of you

When I wake up in the morning
I will go to sleep again
Then I ended up in the evening
Repeating the same thing all over again

Goodnight dear my friend
Goodnight to the world
Let wind sway you in your sleep

Come on,
Star lights in your dreams
Peaceful in your heart
Slowly gonna go to sleep

Goodnight all of you

Dear my friend, don't feel so lonely Im beside you
You can rely on me no worry
Uh oh

Trust me dear friend I will have your back when you fall
asleep

Goodnight, Goodnight,

Goodnight dear my friend
Goodnight to the world
Let wind sway you in your sleep

Come on,
Star lights in your dreams
Peaceful in your heart
Slowly gonna go to sleep

Goodnight dear my friend
Goodnight to the world
Let wind sway you in your sleep

Come on,
Star lights in your dreams
Peaceful in your heart
Slowly gonna go to sleep

Goodnight all of you
Goodnight all of you
Uh Oh
Goodnight all of you
