Verse:

Never thought
The first time I saw you
You'd mean the world to me
Forever on my mind

Never thought
The first time I asked you
Do you wanna be mine
And then you said yes straight away

Pre-Chorus:

Love is love
Love is love
Love is love only for you

Love is love
Love is love
Love is love and this is you

Chorus:

There's no one like you
That ever made me fall
You making me can't stop thinking about you
Day or the night
I can't stop

This is all for you
I am out of control
Following the heart rather than the brain who'll always
try to ignore you

Love
Love is love
Love is love
Love is love only you
(You know what)
Love
Love is love
Love is love
Love is love
You know what

I only love you

Verse:

You know what
The eyes you used to draw
The smile you used to make
I can't stop thinking about those (about those)

Pre-Chorus:

Love is love
Love is love
Love is love only for you

Love is love
Love is love
Love is love and this is you

Chorus:

There's no one like you
That ever made me fall
You making me can't stop thinking about you
Day or the night
I can't stop

This is all for you
I am out of control
Following the heart rather than the brain who'll always
try to ignore you

Love
Love is love
Love is love
Love is love only for you
(You know what)
Love
Love is love
Love is love
Love is love
You know what
I only love you

(Music Break)

Chorus:

There's no one like you
That ever made me fall
You making me can't stop thinking about you
Day or the night
I can't stop

This is all for you

I am out of control
Following the heart rather than the brain who'll always
try to ignore you

There's no one like you
That ever made me fall
You making me can't stop thinking about you
Day or the night
I can't stop

This is all for you
I am out of control
Following the heart rather than the brain who'll always
try to ignore you

Love
Love is love
Love is love
Love is love only for you
(You know what)
Love
Love is love
Love is love
Love is love
You know what
I only love you
