You're my everything  
You're my wildest dream  
I'm a summer breeze  
On your tender skin  
You're my everything  
The heart of my desire

You're my everything  
You're the world to me  
You're my song to sing  
Perfect harmony  
You're my everything  
You've set my heart on fire

I love to seize the first day that I kissed you  
Do never leave, I never wanna miss you  
I'll do anything, no one will ever love you better  
These words of love, I wrote you in a letter

You'll always be the heart of my desire  
When we touch the flames are even higher  
I shiver inside, can't deny the magic power  
I need your loving, every minute, every hour

I wanna be your one and only lover  
I'll make you see, we belong to one another  
My affection is strong, much deeper than the ocean  
Flyin' high, high on emotion

Give me a smile  
I'll take you up to heaven  
Say what you want  
I'm gonna make it happen  
You will always mean the world to me  
You know it's true

Baby I was made for loving you  
I'm addicted to your love forever  
Hope you feel the same affection, too  
I was made for loving you

We'll survive the highs and lows together

I will shelter you from stormy weather  
I will always make your dark sky blue  
I was made for loving you

My baby  
I wanna be the victim of your lovin'  
Do never stop the burning [Incomprehensible]  
[Incomprehensible] , I'll never wanna hurt you  
You'll understand, I'll always be there for you

I wanna be your one and only lover  
I'll make you see we belong to one another  
My affection is strong, much deeper than the ocean  
Flyin' high, high on emotion

Give me a smile  
I'll take you up to heaven  
Say what you want  
I'm gonna make it happen  
You will always mean the world to me  
It's everything you do

Baby I was made for loving you  
I'm addicted to your love forever  
Hope you feel the same affection, too  
I was made for loving you

Give me a smile  
I'll take you up to heaven  
Say what you want  
I'm gonna make it happen  
You will always mean the world to me  
You know it's true

Baby I was made for loving you  
I'm addicted to your love forever  
Hope you feel the same affection, too  
I was made for loving you  
Made for loving you

We'll survive the highs and lows together  
I will shelter you from stormy weather  
I will always make your dark sky blue  
I was made for loving you  
I was made for loving you
