Since the beginning of time  
Since it started to rain  
Since I heard your laugh  
Since I felt your pain

I was too young  
You were much younger  
(You were much younger)  
We were afraid  
Of each other's hunger

I have always loved you  
There's never been anyone else  
I knew you before I knew myself  
Oh, my baby, I have always loved you

Since we kissed the first time  
Since we slept on the beach  
You were too close for comfort  
You were too far out of reach

You walked away  
I should have held you  
(I should have held you)  
Would you have stayed  
For me to tell you

I have always loved you  
There's never been anyone else  
I knew you before I knew myself  
Oh, my baby, I have always loved you

Years go by in a matter of days  
And though we go our separate ways  
I never stop dreaming of you  
I have always loved you

You are my heart  
You are my conscience  
You are a candle in the darkness

And when you call it makes me cry

We never made time for you and I  
We should have had a child

I have always loved you  
Years go by in a matter of days  
And though we go our separate ways  
I never stop dreaming of you  
I have always loved you

I have always loved you, baby  
I have always loved you  
Oh, ah, baby I do  
I have always loved you  
I have always loved you, baby  
I have always loved you
