Inside your heart is a dream
That's really your destiny
It's waiting for you to see
It wants to become a reality

No matter how big or small
You've got to give your all
People will want to make you fall
All it takes is starting is now

It's calling you, It's calling me
To stop hiding from destiny
God is on our side, He's on our side
The road is only one step at a time
We can all live in the dream
Yes, we can all live in the dream

Outside your life is a need
You really have to believe
It's hoping for you to see
Everything that you will be

If you still hear the call
You'll want to keep standing tall
Everything will try to make you fall
All it takes is starting now

It's calling you, It's calling me
To stop hiding from destiny
God is on our side, He's on our side
The road is only one step at a time
We can all live in the dream
Yes, we can all live in the dream

If I gave into every single fear
I would have never been here
One step leads to another
So never stop walking forward

It's calling you, It's calling me
To stop hiding from destiny
God is on our side, He's on our side

The road is only one step at a time
We can all live in the dream
Yes, we can all live in the dream

It's calling you, It's calling me
To stop hiding from destiny
God is on our side, He's on our side
The road is only one step at a time
We can all live in the dream
Yes, we can all live in the dream
