Comeback to me enter the ghost of a loved one  
I still see her silhouette  
I took the seasons for granted now I'm alone  
Somebody save me from losing it  
What's your ideal woman can you say  
Leave it to me  
We're going to find you a candidate  
Just wait and see for the audition

Think you all can just runaway with love  
My sadomasochistic  
Make us fail like the other ones you've done  
Now drain the pain of my sick  
Though I never was ever unhappy  
Your agony betrays your lies  
It's cause all I ever could feel was bad

These words cut through meat and bone  
Hello my love, I waited today for your call  
Please be alarmed how I can behave  
I've been abused, my family tree roots into hell  
But I can keep you warm... with my pain

I'll be the only one you can love  
You're all the same  
I'll bring you into my oblivion  
Deeper, deeper now you understand

These words cut through meat and bone
