

Nomy "I Hate"

Visit "[I Hate](#)" on MotoLyrics.com

Something is wrong with this pain
Cause I got it back again
Never new from the start
That I allways had a heart

Cause you made me who I am
Now I trully understand
That the pain that I feel
Is no longer my appeal

To be free from the past
But you really made it last
I really hate you

Something is wrong with this day
Cause the pain has gone away
But I still hate you

But today I wont stay around you anymore
You never been the one I wanted to
And today I know I think I will go

I allways been so bad...

In the dark I will be hating everything I'll see
And that includes you
I am fire I am rain everything that gives you pain
Cause I still hate you
