We live in sorrow  
Lets die tomorrow  
So let the sun die  
So let the sun...

So scared of this  
My god I miss  
What I could see  
We damned to be

Like saints we act  
Were dogs and that's a fact  
Lets die for everything we've done

And now I'm cold as stone  
You made me lost  
A stone of dust

Lets kill the sun for what we are  
And leave me here with god  
And I've will pay my sins  
With my own blood  
So paint this world in black  
No need to carry on  
Our god is better of  
When we all gone

So scared of this  
My god what did you miss  
In flames we are  
This shiet has gone to far  
We love to hate  
And now your ote of faith  
Confused we stand, a plague will kill this land

We live in sorrow  
Lets die tomorrow  
So let the sun die  
So let the sun...

Lets kill the sun for what we are  
And leave me here with god

And I've will pay my sinns  
Whit my own blood  
So paint this world in black  
No need to carry on  
Our god is better of  
When we all gone
