i was messed up with loanliness  
and was going through darness  
and wanna follow the path of light  
wished i had the strength to stand  
like a partical in the black hole  
leaving behind the past

i felt i was the last one (x6)

i wanna open my eyes  
but i just could not  
cause i was scared of darkness  
but then i realise  
i was dreamin so i opened my eyes  
and then i realise  
i was not

dreamin (x4)

i felt i was the last one(x6)

i wanted someone to hold me now  
but it was too late as i found none  
and left it behind

i wanted someone to hold me now  
but it was too late as i found none(x2)

i felt i was the last one(x6)

the last one , oh the last one oh oh ooh , the last one
