Its a big big world  
And girl I'm gonna show you all of it  
I'm gonna lace you with pearls  
From every ocean that we're swimming in

We can make the sun shine and the moon light  
We can make the gray clouds turn to blue skies  
I know its hard  
Baby believe me  
That we can't go

Nowhere but up  
From here  
My dear  
Baby we can go nowhere but up  
Tell me what we got to fear  
We'll take it to the sky pass the moon to the galaxy  
As long as you're with me baby  
Honestly with the strength of our love  
We can go nowhere but up  
(oohh whao whao Nowhere but up ohhh)
