[III Bill]

How can I make a clear decision in the haze of drugs?
Prostitutes & Guns
I stumble up the ladder with Sabac and Chunk
By my side when I ride in LA
We party with the stars & the starfuckers
And everybody love us
Yeah I do cocaine yeah I love to drink
Love to get my dick sucked and need drugs to think
It's sick
exploding school buses
Jews, Muslims, Christians
What the fuck's the difference?
We all want money, drugs & bitches
Anybody that doesn't rubs me suspicious
I don't trust none of y'all
I don't trust religion
I don't trust the police or the justice system
Peace to erez the hustler locked up in prison
See you when you get home
We gonna puff the ism
The future is right now
Y'all motherfuckers listen
[Chorus: repeat 5X]

There is no future, the future is now
It's non?phixion; we're coming at you like pow
[Necro]

Your future is morbidity
Like Martha Stewart's fluids
The new shit I kick is putrid
Like Bea Arthur's pubics
Jump off the roof and dive headfirst into the concrete
Till the knee splits and blood red squirts
There's no brawling with the strategy of energy
Your cavity splattered your falling
Now gravity's your enemy
Shooting a bullet through your head
Is all it takes to make you dead?
Put a gat to your head

Only thing left to do is pull it
Simple like pressin record
on the remote erasing your life
Elimination, the message is stored
I got a fascination for assasination
Half the nation saw Kennedy murdered as Jackie O
Nassis faced him
When I'm rapping it's like an autopsy
awesome audio, audacity or an orgasm
From dying on crosses to spying war ships
The future is present, peasant
Wake up or stay lying with corpses
[Chorus]
[Goretex]

Alien rehab, with L. Ron Hubbard the drug bucket
Pediatrics bugging on snuff flicks with Tera Patrick
Digital dick, out for cheddar bled on the mattress
Close encounters, add a Peruvian march and pout
about it
A planet that turns actors to crack faggots
We in the ben hearse macking P-Funk & Black Sabbath
Playing it off, stinking like I'm bathing a corpse
Getting frisked by pigs in my Porsche like I'm David Lee
Roth
It's the new mutants, torched your school like I see
students
Metal detectors & dogs putting frost on intruders
I'm flashing my teeth, legal now for stashing your E
My cyborgs ill, this bad bitch with ass that speaks
Put it down with Charlie to eat, God pardon my speech
Godfather, dust blunts, the Judge Dredd of the streets
The Wizard of Gore, forensic, a legend that speaks
Sporting nipples like symbols till heaven repeats
[Chorus]
[Sabac Red]

I'm not just a rapper, I'm an artist, I pound the hardest
Bars tha shot the globe to make the dope sound
retarded
The guards get involved with some of the harshest
mosh pits
Non phixion's back bitch, roll out the red carpet
I spar with legends, pray to the stars & crestens
A lost presence got me through rough times and hard
sessions
Like deaths in the family, my method's insanity
A mixed conscienceness with a twist of profanity
We plan to be some of the sickest riches in the
business
We mean business from the start to the finish

This is for the presidents, drug dealers, scholars &
authors
Warriors, terrorists, professors in college & lawyers
Fathers & mothers, children, sisters & brothers
Pimps & hustlers, gangsters, riches & busters
There's no justice, I'm on some fiending by the thug
shit
You're loving on your enemy, pull your gat and bust it
BAM
