I can't find my way
Without You, Lord
And I won't last one day (refrain)

REFRAIN

~Cause You are my heartbeat in the night
And I wanna last all night
~Cause You are my heartbeat in the night
I know You're gonna last all night

I can't stay in control
With You living in me
You move within my body, mind, and soul (refrain)

BRIDGE 1

Stay with me
And eventually the sun will rise again
Don't wanna be alone
I can feel Your love much more than I've ever
known
And just when I thought I'd had enough
You see the sunlight
And know that everything's gonna be alright
~Cause You are my heartbeat in the night
I know You're gonna last all night

BRIDGE 2

And O " when all is said and done
It's been a long, long night
But I know it's gonna be alright
~Cause You are my heartbeat in the night
I know You're gonna last all night

Refrain 2x
