"Go Time"

Visit "[Go Time](#)" on MotoLyrics.com

It's kill or be killed time.
Light it up and go time.
You got about 3 seconds 'til it blows.
Past the point of looking back.
Your friends can't help you
By yourself, you gotta deal with it alone.
Hide if you think it's gonna help.
Clear every shelf.
Your gonna need a lot of water where you're going.
Any last words for the papers to print.
Before I take it to the bank and cash every last cent.

It's go time, and time to go (show me what you got).
It's gonna tie your inside in knots (show me what you got).
It's go time, and time to go (show me what you got).
It's gonna tie your inside in knots (show me what you got).
It's go time, and time to go (show me what you got).
It's go time, and time to go (show me what you got).
It's go time, and time to go (show me what you got).
It's gonna tie your inside in knots (show me what you got).

Last man standing with a bat in my hand.
Ain't meant for flexing
When are you gonna learn.
Calling every shot that I'm swinging
Laughing at the damage and the crying that I'm bringing.
People lined up, waiting just to see
The caustic and affection and
It's cause and it's effect on me.
Awards and misdirection when I put you on display
For your family, friends, and the whole to see.

It's go time, and time to go (show me what you got).
It's gonna tie your inside in knots (show me what you got).
It's go time, and time to go (show me what you got).
It's gonna tie your inside in knots (show me what you

got)
It's go time, and time to go (show me what you got).
It's go time, and time to go (show me what you got).
It's go time, and time to go (show me what you got).
It's gonna tie your inside in knots (show me what you got).

Show me what you got, go.

Build it up just to bring it all down, now.
Build it up just to bring it all down.
(YOU WANNA GO?)
(LET'S GO!)
(YOU WANNA GO?)
(LET'S GO!)

Build it up just to bring it all down, now.
Build it up just to bring it all down.
(YOU WANNA GO?)
(LET'S GO!)
(YOU WANNA GO?)
(LET'S GO!)

It's go time, and time to go (show me what you got).
It's gonna tie your inside in knots (show me what you got).
It's go time, and time to go (show me what you got).
It's gonna tie your inside in knots (show me what you got).
It's go time, and time to go (show me what you got).
It's go time, and time to go (show me what you got).
It's go time, and time to go (show me what you got).
It's gonna tie your inside in knots (show me what you got).
(YOU WANNA GO?)
(LET'S GO!)
(YOU WANNA GO?)
(LET'S GO!)
