[Thomas Blackwell] [No Question]

Ooh... yeah, yes  
Oh, oh, oh yeah  
Tell me why you're trippin'  
Wildin' out acting a fool  
You don't have to want for nothing  
'Cuz I made sure that you're cool  
The only thing that matters that you stay honest with  
me  
(If I had your heart, then who the hell is he)  
Last night you didn't even come home  
I sat out on your steps and called you all night long  
Still good from the depths of my soul  
I can't hold you if you wanna let go... oh, oh, oh, oh, oh,  
oh

[No Question] [Thomas Blackwell]

If you really wanna go, so long, don't stay (oh yeah,  
ungh... ungh, oh)  
If you really wanna take your love away (it's gonna be  
alright)  
(I can't make you stay hey yea)  
If you really wanna go, so long, it's okay (it's your life,  
well)  
Baby it's your life, ooh... ooh (do what you wanna do)

[Thomas Blackwell]

Remember when I met you, your life was lacking love  
I gave your life a reason, you should thank the Lord  
above  
You've found someone to take your mess and  
sometimes understand  
Who would hold you next to God and would never raise  
a hand  
I could've sworn that I've done everything right  
You've gotta man who comes home to you each and  
every night  
I'm so mad, I just wanna John Blaze  
But if you want to go, then I can't make you stay, go on  
and leave me baby

[No Question] [Thomas Blackwell]

If you really wanna go, so long, don't stay (go on and  
leave me baby walk out the door, hey, it's  
Gonna be alright)  
If you really wanna take your love away (take your love,  
take your love away  
Hey yeah) If you really wanna go, so long, it's okay (I'm  
goin' out of my mind  
Baby, but it's gonna be okay, it's your life)  
Baby it's your life, oohh... ooh (tell me why, break it  
down, break it down,  
Break it down, down, down)

[No Question] [Thomas Blackwell]  
Tell me what I'm suppose to do now, {now}  
I wish that it could work out somehow, {somehow}  
I laced you up, gave you all my love  
Showed you the game and I raised you up  
Now you say you just wanna bounce (yeah, yeah...  
yeah)

[No Question] [Thomas Blackwell]  
If you really wanna go, so long, don't stay (ooohhh do  
you really wanna leave me this way baby)  
If you really wanna take your love away (after all I've  
done when you needed me)  
If you really wanna go, so long, it's okay(ooohhhh,  
listen I wish you would understand, whoaaaaaa, you  
have my heart right in your hand)

Please tell me why, why, why, why, why, do you wanna  
say goodbye, bye, bye, bye, bye,  
Oh tell me why, why, why, why, why, do you wanna say  
goodbye, bye, bye, bye, bye, bye, bye, bye  
Please tell me why, why, why, why, why, do you wanna  
say goodbye, bye, bye, bye, bye,  
Oh tell me why why why why why, do you wanna say  
goodbye, bye, bye, bye, bye, bye, bye, byyyee
