Verse 1:

Sitting here all alone, yes I is
Wondering when she coming home
It's on my mind, why would you lie
And I feel like dying, too big I'm about to cry
I'm depressed, I'm getting lazy
What ima do without my lady
And I swear I'm going crazy 'cause I can't see you

Chorus:

I feel so much pain I can't even cry
I feel like I wasted half of my life
Baby girl I can't take it, all this time that I wasted
My heart's so broke, it's like it's dead inside
I feel so much pain I can't even cry
It's like all the rain has washed all my pride
Baby girl I can't take it, all this time that I wasted
My heart's so broke, it's like it's dead inside

BG Pastronama:

It go up down round and round, love roller coaster
It was fuck me now it's fuck you
The other man supposed to bring us close but we
separated
Now I barely see your face and I fuckin hate it
I can't love.....
I don't wanna love again, man my heart's lazy
Damn I miss you, you should call me baby
Used to get excited when you call
I guess it hurt because i gave you my all
Ima be a man baby, ima stand tall
Conscious when it comes to love, I don't wanna be
involved
Ima take it slow, so slow, so slow
Cause it hurts when it fall
It's gone take a sledge hammer,
a couple bombs to knock down this love wall
Pastronama

Chorus:

I feel so much pain I can't even cry
I feel like I wasted half of my life

Baby girl I can't take it, all this time that I wasted
My heart's so broke, it's like it's dead inside
I feel so much pain I can't even cry
It's like all the rain has washed all my pride
Baby girl I can't take it, all this time that I wasted
My heart's so broke, it's like it's dead inside

Snoop:

All these feelings that I shared, I want them in return
Trust never comes easy, it's sumn you gotta earn
It's sumn you gotta learn, that ain't nobody perfect
Sometimes I sit and wonder why you hurt me, was it
worth it
Too many lies, too many lies that I done told too many
times
From the start I told you I was gone ride
But you thought I had a bitch on the side
Two rights don't make no wrong, two wrongs don't
make shit right
But you fucked up, that's another bitch luck up
Now my middle finger stuck up

Chorus:

I feel so much pain I can't even cry
I feel like I wasted half of my life
Baby girl I can't take it, all this time that I wasted
My heart's so broke, it's like it's dead inside
I feel so much pain I can't even cry
It's like all the rain has washed all my pride
Baby girl I can't take it, all this time that I wasted
My heart's so broke, it's like it's dead inside
