Drenched in Moonlight, your eyes just right
You moved me from the day we met
Today I'm lost, a moment gone
In a dream like emotion

You was on my mind, every single night

It won't be long now, before we get drowned
Before we hit them clouds
It won't be long now, before we get drowned
Before we leave this demon world
It won't be long now, before we get drowned
Before we leave this demon world

We set them goals of nothing
Searching trying to find something
We get blinded by them bright lights
We get blinded by our own insides

You was on my mind, every single night

It won't be long now, before we get drowned
Before we hit them clouds
It won't be long now, before we get drowned
Before we leave this demon world
It won't be long now, before we get drowned
Before we leave this demon world
