If we leave here, will we be the same  
Lost on roads, nowhere behind pain  
Nowhere ahead now, we tattoo, on scar tissue  
We see people, obsessed with issues  
Learn to be strong, alone in the dark  
Lose out on luck, glisten in our eyes  
Where do we go when we die?

Lost in the oceans, lost in a glass box  
How to open it, somehow we forgot

Time passed near us, beside our season  
Listen to self, listen to our own reason

We keep quiet like whispers in the dark  
We let life go to waste as we part

We keep quiet like whispers in the dark  
We let life go to waste as we part

Lost in the oceans, lost in a glass box  
How to open it, somehow we forgot

Time passed near us, beside our season  
Listen to self, listen to our own reason

Repeat :
