The Basics
"Hey There"

Baby, don't you dare take my little baby far away from
me, no
Hey you, if you do, don't think you'll be getting very
far, you see, no no no

She's the only girl I ever had
And if you take her it'll make me feel sad
So...

Hey there, don't you dare take my little baby far away
from me, no
Hey you, if you do, don't think you'll be getting very far,
you see

That I don't wanna be alone
I want her to come home
Come on home to me

She's the only girl I ever had
And if you take her it'll make me feel sad
So...

Hey there, don't you dare take my little baby far away
from me, no
Hey you, if you do, don't think you'll be getting very far,
you see

That I don't wanna be alone
I want her to come home
Come on home to me
Baby don't leave me!
