"Lookin' Over My Shoulder"

I'm being shadowed by a shady stranger
Someone's always lookin' over my shoulder
I'm frightened just to walk around the corner
Your eyes upon me everywhere

I'd tell my friends but they're all losing my temper
They keep on telling me I should know better
Sometimes I wonder if my mother sent you
She said she'd always be right there

Lookin' over my shoulder(x2)

Another morning and I'm sure I saw you
Behind the bushes with a photo camera
My doctors tell me that is paranoia
But I can't shake this feeling that you're there

Lookin' over my shoulder(x8)

Now I go to sleeping now with one eye open
One of these days I'm gonna catch you lurking
Behind the curtains with evil intention
But I can't get away from my own mind

I'm being shadowed by a shady stranger
(feels like)
Someone's always lookin' over my shoulder
(so scared)
I'm frightened just to walk around the corner
(last night)
Your eyes upon me everywhere

Lookin' over my shoulder(x6)
