Tell me why, tell me where
Tell me when and you know I'll be there
Wearing my Earl Jeans
You wear the flower in your hair

Back in town, out of style
Looking like you've never seen a smile
Don't feel so strange
As there could be at any moment a change

I love a happy ending
(Come around)
It's lonely where you're standing

I love a happy ending
When you smile
It's lonely where you're standing
(Come around)

I get those strange vibes
I get those strange vibes
No more estranged vibes
