Look at me, like I'm a saint to be seen
Kiss me, like you'd bring life back to me
Fall for me, like you're not afraid to crash
I demand that special part
The conqueror of your heart
Do me, like I'm the one you saved before
Use me, like I'm your drug of choice
Trust in me, like you don't know that people lie
I demand that special part
The conqueror of your heart
Oh, I demand the special part
The conqueror of your heart
Conqueror
The conqueror
The conqueror
I demand that special part
The conqueror of your heart
Fight with me, like we're enemies
Have enough, like one more you want from me
Walk away, like you never left someone before
I demand that special part
The conqueror of your heart
