There's something between us
They say it's not right
They don't believe us
We'll show them tonight

Oh ---

Wake up, let's ride
Into the sky
As stars collide
Fall into light

The music's forever
If only they'd see
When we're dancing together
We'll always be free

Oh ---

Wake up, let's ride
Into the sky
As stars collide
Fall into light

(Instrumental)

Wake up, let's ride (wake up)
Into the sky (wake up)
As stars collide (wake up)
Fall into light (wake up)
