The further I run with you
Wherever it takes me to
Know that I won't look back
Forever is all we have

Just for one night
Let's run wild (4x)

There's something inside of us
Will we ever be strong enough?
Don't let the hunger die
Together we'll be the light
I'll fight to the end for you
There's nothing that I won't do
No one can hold us back
Forever is all we have

Just for one night
Let's run wild (4x)

Oh ---

Just for one night
Let's run wild (4x)
