I know there's something wrong
You've been cleaning the house for way too long
You whisper so I don't hear
That look in your eye says there's no one near

We never talk now, we only shout
Living in silence that's what we're about
Burning bridges and building walls
Biding time until it all falls

I know there's something wrong
I've been killing time for way too long
A day with this luke warm beer
I've got nothing to say, and no one to hear

We never talk now, we only shout
Living in silence that's what we're about
Burning bridges and building walls
Biding time until it all falls

I know there's something wrong
I know there's something wrong
I know there's something wrong
I know there's something, something, something

I know there's something wrong
I know there's something wrong
I know there's something wrong
I know there's something, something, something

I know there's something wrong
I know there's something wrong
I know there's something wrong

I know there's something wrong
Maybe it's all 'cos we just don't get along
