angela, you know they dropped the bomb
(open up, remember me?)
wipe the rain off your nose and you say
the last words that you'll say to me
you tip your cards, tip your cards
i can see what's in your hand
it's been so long since you ate

stop, listen to what i say now
oh, you've turned the predator to prey now
run, and try to get away now,
let the outside in
(i'm so hungry, empty tummy, i'm so hungry, baby you
look so yummy)

you never will eat a part of me
