

Beekeeper "Pinwheel Revolution"

Visit "[Pinwheel Revolution](#)" on MotoLyrics.com

can i weld these paper folds to flat
without burning all the red and blue
and though weâ€™re not an army i know what to do
i have seen the gasoline burn
and i know the power of the sun
and iâ€™ve stuck my hands outside a moving car

is it cliché if maybe i say iâ€™m spinning?
you and me, somethingâ€™ll be around again
never again is only a friend i keep near
go away then suddenly iâ€™m around again

you can follow compass to the north
but youâ€™re better off looking for stars
cos the compass goes full circle
there you are
i have seen the gasoline burn
tried to find the water on the moon
which direction does the revolution take you?
not forward or back

like a pinwheel we go around and around
round and round
