What is love???
When I was younger
I thought I knew the answer
Know all I see is hurt.

You are the only one
You are the only one who gets me
You are the only one who knows me
You are the only one who knows
How to save me

When I look into our eyes
I see me
I think that maybe
But no

You are the only one
You are the only one who gets me
You are the only one who knows me
You are the only one who knows
How to save me

Now we're sitting here
And all that matters is that
You are here beside me

You are the only one
You are the only one who gets me
You are the only one who knows me
You are the only one who knows
How to save me

Youbar
You are
You are
