"Shine"

I could live in a different place with a different house
and a different name.
I could sing you your favourite song, yeah you'd sing
along, you'd sing along
I could wrap you in your favourite clothes and kiss your
face just so you know
That I'm the one who has got your back, now turn
around and don't be sad

I hope you find the love that's true, so the morning light
can shine on you
I hope you find what you're looking for, so your heart is
warm for ever more

I could fly you away with me to the furthest place you'll
ever be
We could smoke 'til the sun goes down and without a
sound, without a sound
We'd fall asleep by the big blue sea, with open eyes so
we could see
The way it shines for you and I, you know it'll shine until
we fly

I hope you find the love that's true, so the morning light
can shine on you
I hope you find what you're looking for, so your heart is
warm for ever more

I could wait with you by the water
I could wait with you for the winter to come
I could stand with you with your snow boots on

I hope you find the love that's true, so the morning light
can shine on you
I hope you find what you're looking for, so your heart is
warm for ever more
