Do you think loneliness can hide what you feel?
Go hide and you'll get nothing
I can understand how I tortured my
Friends, the way they've seen me walk around
There was nights when I froze in loneliness
I did deny then
How seconds could turn into an eternity when
I came only to leave

Ask me and I'll stay right here
Do you want to know who I am?
Ask me and I'll stay right here
There's nothing that stops us here

How many days has I left to disappear
When I cursed they who existed?
Are you looking for warmth where a heart stopped
burning
You have your soul somewhere else.
When I thought I've found what I dreamt
I was up in the blue.
What I headed then I forgot
When I came only to leave

Ask me and I'll stay right here
Do you want to know who I am?
Ask me and I'll stay right here
There's nothing that stops us here

Kanske År det hÅr det finns en plats ÅndÅ
FÅr frÅmlingen som alltid kom, men bara fÅr att
gÅ.

Maybe there's a place for me anyway
For the strangers who always came, but only to leave.

I can force myself to stay if you want me too,
But the only thing I'll get
Is a feeling of not existing
If I came only to leave

Ask me and I'll stay right here

Do you want to know who I am?
Ask me and I'll stay right here
There's nothing that stops us here

Ask me and I'll stay right here
Do you want to know who I am?
Ask me and I'll stay right here
There's nothing that stops us here
