Sweet Salvation

( Michael Grimes )

Bottles of liquor and these smoky bars  
Lifelong companions when seen from afar  
Cigarette cherry, my lone guiding star  
Shining light on my salvation  
Shining light on my salvation

Signs in the window flicker and start  
The diligent barkeep is playing his part  
The sweet smell of bourbon, so dear to my heart  
Shows the way to my salvation  
Shows the way to my salvation

Liquor and cigarettes, desires and dreams  
Brings light to the troubled, forgives and redeems  
More often than not, it s not as bad as it seems  
When I'm here with my salvation

Liquor and cigarettes, desires and dreams  
Brings light to the troubled, forgives and redeems  
More often than not, it s not as bad as it seems  
When I'm here with my salvation

Chairs on the tables, sweep up the floor  
Piano sits silent, entertaining no more  
The kitchen's been closed, the cook's out the door  
On the road to sweet salvation  
On the road to sweet salvation  
On the road to sweet salvation  
On the road...
