You placed the stars into motion.  
You called to the Light and it came into place.  
Every detail of our beings You created.  
Like a good Father you take care...You hold my being.  
You wrap yourself around every detail of my life.  
You place everything into motion  
And all I have to do is stand in the palm of your hand...  
cause I mean everything to You.  
I mean everything to You! Ooooh! Yea.  
You wrap Yourself around me yeah!  
You hold me together in Your hand!  
When I'm feeling that I'm falling apart and I'm  
everywhere...  
You hold me now!  
Cause I mean everything to You!  
I mean everything to You!  
And You mean everything to me...you mean...oh!  
And You mean everything to me! Ooooh!  
You mean everything to me...yea.  
Daddy God, You mean everything to me!  
I bear my soul completely before You!  
Oh yea...I'm Yours.  
Cause you mean everything to me!  
Everything in this whole world...
