ooohh, oohhh ohhh.

Your cold breath, racked in my skin  
And has frozen down, every single cell of me  
And,  
Your cold blue eyes, force my own to tears  
And I know this is how you are

And this is what I love, this is what i know  
I only thought you'd get this one straight  
and trust in what i sad.  
I always wanted the best for you.  
And now please give me  
...one last kiss. (Before)

You take a hammer, smash the ice,  
You smash a love, you can't define  
Run away from presence, past and future  
Loosing both my arms, catching you up when you fall  
Taking all you pain away

Now you're letting me go...

And how can I believe in hope  
But be left with none of my own? oh, oh oh

My big heart, broke in your hands  
While freezing down, every single beat of me  
And  
Your cold touch, crystalized my faith in you  
And I know this is how you feel

And this is what destroyed us, this is what I am  
You cooled me down and watched all the pieces fly  
Was it fun? After all i did for u!  
No one will ever be there for you like me.  
And now please give me  
...one last kiss. (Before)

You take a hammer, smash the ice,  
You smash a love, you can't define  
Run away from presence, past and future

Loosing both my arms, catching you up when you fall  
Taking all you pain away  
oh oh oooh

I'm fading away.
