[Hook: Lil Wayne]

Bitch tried to kiss me after head
Fuck wrong with your head?
She tried to kiss me after head
Fuck wrong with your head?
She tried to kiss me after head
Fuck wrong with your head?
She tried to kiss me after head
I kicked her out my bed

[Verse 1: NORE]

Okay, we left the club around 3
Headed back to that room
Yea, it's time for that dome
'Cause we checkin out around noon
She said damn N.O.R.E. so cold
Keep it up, always no doors
Look at that ass, shawty on swole
We could just go go go go
How bout some back shots?
Do it missionary
Whip out my laptop, pulled out my dictionary
And I got head right off the whip
Then she came out up my lips
I'm like bitch what part is this?

[Hook]

[Verse 2: NORE]

Still gettin head all in that whip
With out crashing that shit
You see me passing some Crys
You know I'm smashing that bitch now listen
Last night I had a new hoe with a Molly on and a neuvo
She want to leave in my two door
She was on the D you know coomo
Freaks come out at night
I see she bout that life
Feed that bitch that pipe
Skeet skeet like more than twice
I'm getting head like once again and she came up out

my lips
That's one part I'm just not with bitch tried

[Hook]

[Bridge: NORE]
I had to tell her man
Baby girl, Mamita seniorita
We could've did what we did, what we supposed to do
But after you did what you did
Ewww
