This is version,
Deeper than the deepest ocean

You gotta...

Rock and comin'
This ah style they can't touch
It ah the boogie man skank
That the people love so much

You gotta...

Jump up and prance shuffle feet ina the dance
The natty dub music make you get up and bounce
Bare vanilia kush that we sell by the ounce
Take a likl' puff and find
Your self down ina the trance

My name is biga*ranx "wha" straight from outta france
With a likl'likl'wine that ah bare romance
And even if you're broke by the end of the month
Take a likl'credit do the boogie man skank

Rock and comin'
This ah style they can't touch
It ah the boogie man skank
That the people love so much

So I...

Bite up the spliff like a bare crocodile
Like a cayman's feeding ground straight from the Nile
The gal'they love it when I come well versatyle
Louis 59 yeah come ah versaille

So we kill it with the knowledge
Call upon the third eye
Only god can judge me so mi nah justifie
It's like so many kids they were born to cry
They're dreaming of the sommet but the sommet's too
high

You gotta...

Rock and comin'
This ah style they can't touch
It ah the boogie man skank
That the people love so much
