Pon that big coco tree unoo fi climb up
Girl you make mi body sing like sugar minott
Mi tell her come ina mi place she answer "why not"
Ca'mi love it when you drop it and your spine pop
And you're shy baby girl you no hype up
She ah the baddest artist pon the line up
On the big major label they wanna sign up

You are star a town when you walk down the road
Ina the middle a moon light you shine on your own
No chinese whispers we express pon the phone
Come ina mi zone gal mi tuff to the bone

Come from miles away "and"
She make me put my gun away
"I know she" love the brigante "what else"

I'm the predator she's the prey

You are the sweetest fruit in the market
So the brigante a pree you like a target
Mi love it when you wine and go down pon the carpet
When you spin like a satellite round the planet
Your ex boyfriend he was heartless
Nothing to compare with this artist
This ah no gentleman this ah no patrice
You are mi number one hollywood actrice

You are star a town when you walk down the road
In the middle a moon light you shine on your own
No chinese whispers we express pon the phone
Come in mi zone gal mi tuff to the bone

You nah easy you nah easy you nah easy you nah easy
You nah easy you nah easy you nah easy you nah easy
You nah easy you nah easy you nah easy you nah easy
You nah easy you nah easy you nah easy you nah easy

Come from miles away "and"
She make me put my gun away
"I know she"love the brigante "what else"
I'm the predator she's the prey
