im a street sweeper in your city of dreams
yeah, im a street sweeper in your city of dreams
sweepin up the paper cups between the limousines
street sweeper in your city of dreams
thousands of windows, im scared of what i see
thousands of windows, im so scared of what i see
people wired up to telephones, plugged into tv screens
thousands of windows, im so scared of what i see
lookin at the sky above, higher than these neon names
im lookin at the sky above, higher than these neon
names
you cant buy and sell the clouds, they aint among the
commodities we trade
lookin at the sky above, higher than these neon names
im waitin for the city of god
yeah, im waitin for the city of god
when what is will be what was
waitin for the city of god
im a street sweeper in your city of dreams
yeah, im a street sweeper in your city of dreams
sweepin up the paper cups between the limousines
street sweeper in your city of dreams
3x city of dreams
