"Fly"

Visit "[Fly](#)" on MotoLyrics.com

I love the way that I'm feeling
No circles just straight feelings
Don't mess with me
I'm gone in my own mind
I can't stop moving around

I love the way that we fly (So high)
I love the way that we die (Everytime)
I love the way that we fly

We're flying so high
We barely know where we are
No more limits
We say we don't give a shit

So why you're standing alone in this whole mess
Feel the rage put your helm now brake some shit
Feel the rage put your helm now take some breath
Feel the rage put your helm now smoke that shit

I love the way that we fly (So high)
I love the way that we die (Everytime)
I love the way that we fly
Yeah

I love the way that we fly!
I love the way that we die
I love the way that we fly; High
So high..
