Yes hello,  
Can you refer me to your manager  
I must have a word  
I'm a frequent consumer  
The product you sold me isn't quit what I  
I think I deserve  
I'm not here to argue  
I only mean well  
I can't keep preforming the shame of a sale  
Todays not a good day tmrws no better  
I exhale frustration  
So many answers

Welcome please make ur self at home sit down  
Injoy my rejoyce and company  
Soak in the sun befor it passes you  
Complete me

Take me I'm all aboard I'm coming home  
Set sails a way n unify  
Tear out the pages and make my own  
I make my own life

Wait just a min if these are my choices  
Youve got to be kidding me  
It simply wont do  
I wont play the same games or the same songs I need  
options I want changes  
Can't you spare me a few  
It's not time to argue  
No I don't need ur money  
I'm just fine with out it  
I've got music I'm lucky  
Live hard and prosper  
Is just what I plane on  
And I'll ignight contemptment  
Shots fire from my cannon

Welcome please make ur self at home sit down  
Injoy my rejoyce and company  
Soak in the sun befor it passes you

Complete me

Take me I'm all aboard I'm coming home  
Set sails a way and unify  
Tear out the pages and make my own  
I make my own life  
I make my own life  
I make my own life

Take me I'm all aboard I'm coming home  
Set sails a way and unify  
Tear out the pages and make my own  
I make my own life

Take me I'm all aboard I'm coming home  
Set sails a way and unify  
Tear out the pages and make my own  
I make my own life  
I make my own life  
I make my own life  
I make my own life
