"Heyo"

Visit "[Heyo](#)" on MotoLyrics.com

Verse 1:

The night has gone see dawn arise
The moon and stars no longer shine
A glorious sun is brightening up the skies
The light has come the Son is here
His awesome radiance draws us near
His gentle breath upon us chases fear

Chorus:

Heyo heyo sing and dance now
Heyo heyo pour your joy out
Heyo heyo sing and dance with me

Vers 2:

The day has come justice be done
The time of truth for everyone
And all believers join in this song
The darkest deeds don't stand a chance
The children of the light will dance
Forever celebrate the great romance

Rap:

Live in that moving generation
People of hope bringing peace to the world wide
nations
Joy and his love is their strength and motivation
They're striking the ground with a global reformation
