### "Hold On"

Everybody needs a friend who cares and  
Holds him  
Everybody needs someone to believe  
Everybody needs a shoulder to support  
Him  
Everybody needs one to share the dream  
If you dare to go with me we will win  
Hold on, hold on believe  
The sun is shining upon me  
The sun is still shining over me  
The world keeps turning around me  
Hold on, hold on believe  
Everybody needs a beacon in the shadows  
Everybody needs (a) starlight in the dark  
Everybody needs to know that there is mercy  
Everybody needs a touch of Gods love  
Everybody, everybody, everybody needs someone to  
believe
