

Norma Jean "Home Made Love"

Visit "[Home Made Love](#)" on MotoLyrics.com

Need her on your business trips hold her tight and kiss
her lips

Just enough to tie you over from time to time

I'll be waiting all alone you gotta hardly welcome home

So when you're lonely just keep in mind

Home made love home made love old fashioned

kisses sweet and warm

Home made love home made love the only thing you

find it's in my arms

She can keep your company until you get back to me

But don't let your appetite run away with you

You'd be sorry if you would you're too decent kind and

good

I don't think that kind of love would agree with you

Like home made love...
