Don't get no attention from the people on the street
They don't even see us they just step right on our feet
Just two unnoticed people in this great big world are we
And when I think about it yes that's all we'll ever be
But I got you and you got me and if they look they can
see that we don't care
I got you and you got me and baby that's all we will
ever need
[guitar]
Looking through the window of a fancy diamond store
Going window shopping for the things we can't afford
People all around us with their noses in the air
They walk right on by us just like we're not even there
But I got you and you got me...
I got you and you got me...
