

Norma Jean "Just Treat Me Kind"

Visit "[Just Treat Me Kind](#)" on MotoLyrics.com

You think you've got it made cause you're with me
tonight
And you think I'll be easy by the way I hold you tight
Take my advice and don't scold me and you might
make sometime
I'm a fool for any man who will just treat me kind
I'm just reaching for affection that I can't find at home
I'm gettin' even for the bad times the long nights alone
I know that you don't love me but that won't change my
mind
I'm a fool for any man who will just treat me kind
[steel]
I'm just reaching for affection...
I'm a fool for any man who will just treat me kind
