Enslavement wasn't my first choice.
My will is greater than that, believe me.
I'd scratch away to the center.
I'd bite it down to the blood.
I want to rip out the foundation,
I want the axis to rupture.

I never wanted to tell you since we know you've heard it
before.
Yeah... I never wanted to show you since we know
you've seen it before
I break your heart,
I know, I know you've felt it before.

Yeah, too many things try to pull me down.
Life seems to be like a dropping cloud.
Believe me, I'd scratch away to the center.
I'd bite it down to the blood..
I want to rip out the foundation,

I want the axis to rupture.
I'd scratch away to the center.
I'd bite it down to the blood.

I never wanted to tell you since we know you've heard it
before.
Yeah... I never wanted to show you since we know
you've seen it before
I break your heart,
I know, I know you've felt it before,
So many times before, before.

I'd scratch away to the center.
I'd bite it down to the blood, the blood.

I'd scratch away to the center.
I'd bite it down to the blood.
I'd scratch away to the center.
I'd bite it down to the blood.
I'd bite it down to the blood.
