"Let's Twist Again"

Visit "[Let's Twist Again](#)" on MotoLyrics.com

Come on let's twist again
In the spirit's power
Yeah let's twist again
Cause the spirit's here
Do you remember when
We would dance for hours
Yeah come on let's twist again
Praising time is here

And round and round and up and down we go again
It's time to let him know we love him so
Come on let's twist again
In the spirit's power
Yeah let's twist again
Cause the spirit's here

I sit in my room, doom feeds my misery
Struggles and stress only troubles all around me
But I remind myself, that love I've found in you
The truth hits my mind and my knees begin to move
Let's twist again is in my head and in my mind yo
Twist again cause the spirit caught my life yo
Twist again my body chose to praise ya
Twist again cause the twister starts to raise ya

I went back into school and I tried to be cool
Bowed to peer pressure just like a fool uncool
Suddenly a smile turned up upon my face
And the grace of your love made me twist again
Let's twist again is in my head and in my mind yo
Twist again cause the spirit caught my life yo
Twist again my body chose to praise ya
Twist again cause the twister starts to raise ya
